Summary

Detail-oriented Software Tester with hands-on experience in manual and automation testing, eager to contribute to delivering high-quality software products.

Experience

Software Tester – Full Time

Tadarab, Alexandria, Egypt – Hybrid (October 2024 - Present)

- Analyzed software requirements and user stories to identify test scenarios and edge cases.
- Designed and executed test cases based on user stories and acceptance criteria.
- Performed exploratory testing to identify hidden issues not covered by test cases.
- Tracked defects using Jira and Google Sheets to ensure transparency and timely resolutions.
- Initiated an end-to-end automation framework from scratch, covering 10% of core website test cases.
- Worked closely with developers to reproduce bugs and provide detailed steps and logs.
- Collaborated with business stakeholders, and designers to clarify acceptance criteria.
